THANK YOU...

for interest in Superbike-Coach programs

Hallo,

Optionen sind verdeutlicht in Rot.

California Tour, Level C:

Arrival San Francisco, California. I'll pick you up at the airport. I'm going to celebrate with you to the city. (1 night)

In the morning we drive together in the car on one of the most beautiful roads in the world to Monterey / Salinas to our hotel. (1 night)

Then we go back to San Francisco, where we pick up our motorbikes and rent the car after having packed our luggage in the hotel. From the moment I will accompany you on a motorbike. We drive and then discover a little the most beautiful city in the world ... San Francisco. (1 night)

On the next day we drive on Highway One but far away from the tourist direction north. This is something you will never forget, including San Francisco and the Golden Gate Bridge. We glide up to Napa Valley on fantastic roads, and then head towards San Francisco East Bay. (1 night)

Next we will finish the tour and return the motorcycles at times. If that was not enough you could add another hotel night to experience SF even more (1 night, evt 2)

The next day I bring you to the airport and help with the check in etc.

- Optional: Additional night / day in San Francisco (price also includes the extra expenses of hotel +1 day): EUR 130, -

* Prices are per person. The euro value is used as the booking price is to be paid in US dollars. Changes reserved to intercept hotel or gasoline price changes. A 50% deposit is required upon booking.

Possibilities to save money:

- Two double rooms and one single room (1zim / 2pers) are already included.
- More participants lower the price significantly (unlike other organizers)

Not included in the quotation price:

Arrival and departure USA, meals, gasoline, road side assistance (additional insurance available at motorcycle pick-up), park entrance, parking, tolls, tickits for next to activities.

"Team option"

Most of those who book this tour do without a companion vehicle. This allows me, your guide, also with a motorcycle on the road. The coherence is promoted, which should not be underestimated. Only the baggage becomes the 'feasible' challenge.

Best regards
